Master Terms and Conditions

Prior to being considered for participation in any Promotional Program and in addition to any other requirements set forth in these Master Business Rules, a Retailer must: (A) have a valid Retailer Agreement in full force and effect with DISH; (B) otherwise be in good standing with DISH and Echosphere; and (C) purchase DISH Systems directly from Echosphere and/or an [Authorized Distributor](#). Sales of Hardware, equipment and/or DISH Systems or Receivers on third-party web sites other than those owned by the Retailer or expressly approved by DISH is strictly forbidden.

The misrepresentation of the terms and conditions of any Promotional Program to Subscribers and/or the failure to disclose material terms and conditions of any Promotional Program to Subscribers may be deemed, as determined in DISH's Sole Discretion, to be fraud under your Retailer Agreement(s). Any breach or default of your obligations under these Master Business Rules may be deemed, as determined in DISH's Sole Discretion, to be a breach and/or default under your Retailer Agreement(s).

Notwithstanding anything to the contrary set forth in your Retailer Agreement(s), Retailers are not required to participate in any Promotional Program and participation in any Promotional Program may not be available to all Retailers. All pricing, programming, packages, and other terms and conditions of service are subject to change without notice.

Telemarketing

Retailers are responsible for complying with all applicable Laws, including without limitation, telemarketing laws and DISH's phone sales policies. It is a violation of DISH's Business Rules and policies for Retailers to perform any outbound sales-related telephone calls or text messaging unless such call or text message is in response to a direct and very recent request to communicate by telephone at that telephone number from the individual and such phone call or text message is conducted in accordance with applicable Laws and with appropriate business records to support the lawfulness of the phone call or text message. Retailer must also notify DISH of, and receive prior written consent to use, any independent contractors, subcontractors, affiliates, agents, sub-agents or any other persons not directly employed by Retailer to make outbound telephone calls or send text messages related to DISH products and services.

Auto-dialing technology

Retailers may not, directly or indirectly through any affiliate(s) or third-party subcontractors, use any auto-dialing technology to place outbound telephone calls to promote DISH products and services (both sales and non-sales related) without first receiving DISH's prior written consent. Retailer must also obtain DISH's prior written consent for the use of any independent contractors, subcontractors, affiliates, agents, sub-agents or any other persons not directly employed by Retailer to fulfill any obligations under the DISH Retailer Agreement.

These Business Rules are Business Rules under your Retailer Agreement(s), and DISH may modify, replace or withdraw any or all of these Business Rules at Any Time and in its Sole Discretion, upon notice to Retailers. These Business Rules supersede any and all prior versions in their entirety with respect to activations of Subscriber Accounts that occur on or after the effective date of these Business Rules, and such prior versions (if any) shall be of no force and effect with respect to such activations. For activations of Subscriber Accounts that occurred prior to the effective date of these Business Rules, the corresponding prior version (if any) continues to apply.

Trouble Call Referral Program

Trouble Call Referral Program

Each Retailer is responsible for providing after-sales services for each Subscriber for which such Retailer is the [Retailer of Record](#) (ROR) or [Last Event Provider](#) (LEP) throughout the entire applicable Retailer installation warranty period. Trouble call work orders are assigned to Retailers through Partner Hub at <https://partnerhub.dish.com> in the Work Orders section under the Manage tab.

Retailers are required to complete a DISH Protect Amendment to their Retailer Agreement to be eligible to receive DISH Protect Monthly Incentives. Additionally, Retailers who purchase equipment from Echosphere must create an Assistance Request on Partner Hub using category General Questions, subcategory Business Rules in order to provide the ZIP Codes so that DISH can determine the Retailer’s service area. ZIP Codes must be provided upon completing the DISH Protect Amendment (in order for the Retailer to begin receiving referrals), and any time there is a change in the area the Retailer services. Retailers who purchase equipment from an [Authorized Distributor](#) should contact their Authorized Distributor for information on how to provide them with service area details as their process may differ.

The Incentive will be paid to the ROR for every Residential Subscriber Account activated with Eligible Residential Programming and is enrolled in the DISH Protect for 28 consecutive days within a given month. DISH Protect Monthly Incentives will be paid approximately 45 days after the last day of the qualifying month (on or around the 15th of each month).

Each month DISH shall calculate the total number of eligible Residential Subscriber Accounts enrolled in the DISH Protect for which a Retailer is the ROR. Based on that total, the DISH Protect Monthly Incentives will be paid approximately 45 days after the month for which they were calculated. Payment is dependent on the Retailer fulfilling at least 80%* of the Trouble Call Work Orders referred to the Retailer in the month immediately following the month for which the total number of eligible Residential Subscriber Accounts enrolled in the DISH Protect was calculated.

Payment Schedule and Eligibility for DISH Protect Monthly Incentives		
Month 1 Calculation	Month 2 Measurement Period	Month 3 DISH Protect Monthly Incentive Payment
Number of Eligible Subscribers enrolled in the DISH Protect is Calculated.	≥80%* of Trouble Calls are fulfilled	Yes
	<80%* of Trouble Calls are fulfilled	No

*If less than 5 Work Orders are assigned to a particular Retailer within a measurement period, the percentage of Work Orders that must be accepted, completed, and closed in order for the Retailer to receive the DISH Protect Monthly Incentive payment the following month are listed below:

Work Orders Assigned in the Measurement Period	Minimum Required Completed Work Orders in the Measurement Period	Minimum Required Completion Percentage in the Measurement Period
0	0	0.00%
1	0	0.00%
2	1	50.00%
3	2	66.67%
4	3	75.00%
5 or more	80%	80.00%
The completion percentages above are effective for each 1 month measurement period beginning May 1, 2010, and for each 1 month period thereafter.		

DISH Protect Monthly Incentive Payments with respect to a particular Residential Subscriber Account shall be discontinued in the event that: (a) a particular Residential Subscriber’s enrollment in the DISH Protect has been terminated or cancelled for any reason; (b) the participating DISH Retailer who is the ROR for such Residential Subscriber Account rejects **ANY** assigned trouble call work order (defined as TC or CH work orders in such DISH Retailer’s work order queue); (c) the participating DISH Retailer who is the Retailer of Record (ROR) for such

DISH Retailer Master Business Rules

Residential Subscriber Account fails to successfully complete an assigned trouble call work order to the sole satisfaction of the Subscriber and DISH; or (d) the Residential Subscriber Account is disconnected for any reason, including [DISH Pause](#).

Retailers will continue to be assigned trouble call work orders for up to 45 days from the last date they received a DISH Protect Monthly Incentive for that Subscriber.

- If a Residential Subscriber Account that is disconnected or in [DISH Pause](#) is reactivated, DISH Protect Monthly Incentive Payments will not restart.
- If a Residential Subscriber Account remains continuously active and is not in [DISH Pause](#), but removes and later resubscribes to DISH Protect, the DISH Protect Monthly Incentive Payments will resume.

Technician Visit Process

An internal system will assign work orders to Retailers on a daily basis (365 days per year). There are two work order types that a Retailer may see in their work order queue.

- TC – work orders assigned to Retailers for a Subscriber whose accounts have been active for 60 days or less or who have a work order scheduled within 60 days following any previous Technician Visit completed by a Retailer regardless of the length of time the account has been active.
- CH – all other work orders that are not defined by TC in which the account has the DISH Protect active.

Retailers that are assigned a work order can see the detailed information by clicking on the hyperlink on the left side of the work orders screen. The status of the work order can be viewed and changed from the dropdown here. There are 4 possible status categories.

- Assigned – indicates a work order has been assigned to the Retailer, awaiting response from the Retailer.
- Accepted – indicates the Retailer has accepted the work order.
- Rejected – indicates the Retailer has rejected the work order.
- No Response – indicates the Retailer failed to accept or reject the work order by the applicable Trouble Call Acceptance Deadline.

The window of time in which a Retailer must respond to, accept and close all trouble call work orders varies based on the time of day in which the trouble call work order is scheduled with the Subscriber. All stated times for acceptance and closing of trouble call work orders are in the Subscriber's time zone. All scheduled appointments between 8 a.m. and 12 p.m. (Noon) will be considered "[A.M. Trouble Calls](#)." All scheduled appointments between 12 p.m. (Noon) and 5 p.m. or between 5 p.m. and 7 p.m. will be considered "[P.M. Trouble Calls](#)." Retailers must respond to assigned trouble call work orders via Partner Hub no later than a certain time, as specified below, in relation to the Scheduled Appointment.

The Trouble Call Acceptance Deadline for an A.M. Trouble Call shall be 11:59 p.m. on the day before the scheduled appointment. The deadline to close an A.M. Trouble Call shall be 11:59 a.m. the day following the scheduled work order. The Trouble Call Acceptance Deadline for a P.M. Trouble Call shall be 8:59 a.m. on the day of the scheduled appointment. The deadline to close a P.M. Trouble Call shall be 11:59 a.m. the day following the scheduled work order.

The referral system WILL NOT make time adjustments for work orders created for Subscribers whose address is in an area that DOES NOT observe Daylight Saving Time. Work orders assigned for Subscribers whose address is located in one of these areas must be accepted, rejected or closed one hour earlier than the time frames stated in these Business Rules. Puerto Rico, U.S. Virgin Islands and certain areas of the contiguous United States do not observe DST.

Please note that if a scheduled appointment requires a Retailer to resolve an issue that is not related to the original installation (e.g., Subscriber negligence, weather damage, new roof on the house, etc.) or not related to an issue involving hardware that is covered under the DISH Protect promotion ("[Covered Hardware](#)"), the Retailer may, in its discretion, charge the Subscriber for the trouble call work order. Retailers that plan to charge a Subscriber for the work done to resolve the trouble call work order must disclose to the Subscriber that the Retailer will be charging the Subscriber an additional amount that is not covered by the \$10.00 fee that may have already been charged by DISH before beginning the work. It is also recommended that Retailers provide an estimate of the potential charges before beginning the work, as this may help avoid misunderstandings.

[Back to Table of Contents](#)

Sales-Only Option

For those Retailers who do not intend to perform the installation for a particular sale, DISH has a sales-only option. The Retailer may elect to have DISH or DISH's third-party contractor, perform an installation for any sale by selecting the "DISH Install" option in Axiom. There are only three scenarios for which the sales-only option should be used:

- For Local Retailers who have the opportunity to complete sales outside their normal sales market, and for which there was no advertising performed.
- For a Local Retailer who for a limited timeframe has a higher volume of sales than capacity to perform installations.
- For Local Retailers who are considering expanding into a market where currently they have no physical presence, the sales-only option may be used for a limited time. Specifically, subject to the below conditions, a Retailer may market and sell into an area, and have DISH perform the installation for up to a 6 month period.
 - In order to participate in this sales-only option, Retailers must contact their area manager to obtain approval, identify a target [DMA](#), and create a marketing campaign.
 - Should a Retailer wish to continue advertising and selling in a market after 6 months, that Retailer must hire technicians who will perform installations on at least 80% of all sales in the area.
 - If at the end of the 6 month period the Retailer is still actively marketing and using the sales-only option for the majority of their sales in the target DMA, such Retailer may be subject to disciplinary action, up to and including termination.

Repayment of Charged-Back Incentives

Charged-back Incentives may be repaid to a Retailer in certain circumstances, as detailed below. DISH will pay Incentives on reactivated equipment only to the original ROR.

DHA24 Elite, DHA24 Plus, DHA24 Standard Incentives

For Residential Subscribers under one of the DHA24 Plans, if an Incentive is charged back due to a Residential Subscriber Account disconnecting, going on [DISH Pause](#), or downgrading below Eligible Residential Programming, Incentives will not be repaid should such Residential Subscriber Account reactivate, return from DISH Pause, or upgrade to Eligible Residential Programming.

Flex24, FlexTV Incentives

For Residential Subscribers under the Flex24 or FlexTV Plans, if an Incentive is charged back due to a Residential Subscriber Account disconnecting or downgrading below Eligible Residential Programming, and such Residential Subscriber Account is: (A) reactivated with or upgraded to Eligible Residential Programming within 15 days following such disconnection or downgrade, such Incentive may be repaid (and there is no limit on the number of times that this may occur); and (B) reactivated with or upgraded to Eligible Residential Programming after 15 days following such disconnection, such Incentive may be repaid once.

- If such repaid Incentive is subject to the [360-day 50% Chargeback](#) rule, the chargeback calendar will resume where it was upon the Residential Subscriber Account's disconnection of Eligible Residential Programming, rather than start over upon reactivation or upgrade.
- If such repaid Incentive is subject to the [30-Day Non-pro-rated Chargeback](#) or [180-day Non-pro-rated Chargeback](#) rule (as applicable), the chargeback calendar will restart upon the Residential Subscriber Account's reactivation of or upgrade to Eligible Residential Programming.

Telco/Retailer Relationships

Bundling DISH Subscribers with a Telco

DISH Retailers in the Continental United States are not directly involved in the bundling process between a DISH subscriber and a Telco. The DISH Retailer performs the qualification and installation of DISH for the Subscriber, as usual. If the Subscriber is interested in a Telco's bundle offer, then the Subscriber will need to contact the Telco within 60 days following its DISH installation. The Telco will then qualify the Subscriber for its bundled services and extend the new Subscriber offer to the Subscriber, if applicable.
